Gospel Presentation Instructions

Theological Foundations

Purpose:

This activity will help you to integrate your theological knowledge from various categories into a larger framework of the Christian Gospel. You will choose three of the theological categories. And for each of the three, you will think through how this truth fits in the four pillars of the Gospel. Ideally, you will understand what part of this category corresponds to each vital truth of the Gospel and how the truth of this category is significant for the proclamation, reception, and application of the Gospel in individual lives, leading to salvation, and growth in discipleship and Christian service.

Procedure:

Choose any three theological categories from the following list:

- Bibliology
- Theology proper
- Anthropology
- Hamartiology
- Christology
- Pneumatology
- Soteriology
- Ecclesiology
- Eschatology

Use a concordance, Bible software, theology textbooks, and/or other reference to find the relevant Bible material if necessary (you can do this from memory if your existing Bible knowledge proves sufficient).

Organize this material and create a presentation in the format of your choosing (a chart or table appropriate, but you are not limited to those formats).

(continued on the next page)

Expected Content:

Using the examples in the "Theological Framework: Themes" video as a guide (though in much more detail than those necessarily brief examples), develop a presentation that addressed the following points:

- There will be three sections of your presentation, each addressing one of your chosen categories.
- In each section, there should be four subsections, one for each of the pillars of the Gospel presentation.
- In each subsection, describe the significance of the theological category for that pillar. What does this category contribute to our understanding of this pillar? How does this category help us to understand, believe, and proclaim the Gospel of Christ?
- Attempt to describe any significant trends or progression in the doctrine that corresponds to the Gospel of Christ.
- Include a summary of any insights gained by looking at the particular doctrine through the lens of the four pillars of the Gospel.
